

JESSIKA SEEDARLA

🌱 M.SC. BIOTECHNOLOGY GRADUATE • PHD ASPIRANT

👤 ABOUT ME

A focused biotechnology graduate aspiring to pursue **PhD in Science - Life Sciences (Biotechnology)**. With a strong academic foundation in **Biotechnology** and **M.Sc. Biotechnology** training, I am interested in **Molecular Biology**, especially gene expression and regulation. I bring disciplined laboratory practice, analytical thinking, and consistent academic commitment to advanced doctoral study.

🎓 EDUCATION

M.Sc. Biotechnology - Machilipatnam

📅 2024 - 2026

Developed advanced knowledge in biotechnology, molecular biology, and life sciences with strong links to Botany and Zoology fundamentals. Built conceptual depth and practical clarity for rigorous laboratory work and doctoral-level scientific inquiry.

B.Sc. Biotechnology - Harshini Degree College, Ongole

📅 October 2021

Consistently achieved highest grades with merit certificates and scholarships for academic excellence.

Intermediate (Bi.P.C) - Narayana Junior College, Ongole

📅 April 2018

Excelled in Biology, Physics, and Chemistry with distinction grades.

SSC - Sri Chaitanya High School, Markapur

📅 May 2016

Strong foundation in science subjects with outstanding performance.

🏆 ACADEMIC ACHIEVEMENTS

★ **Ranked 1st in B.Sc. Biotechnology** - Consistently topped all semesters at Harshini Degree College

🏆 **Top Scorer in Intermediate (BiPC)** - Distinction grades with special excellence in Biology

🏆 **Top Scorer in Class 10 (SSC)** - Distinction with outstanding performance in Science

🏆 **Merit Certificates & Scholarships** - Received multiple honors for academic excellence

🌟 **Perfect Academic Record** - Maintained consistency throughout school and college

🌟 ACADEMIC INTEREST & PHD FOCUS

🔬 **Primary Area of Interest** - Molecular Biology

🔬 **PhD Focus** - Study of Gene Expression and Regulation in Molecular Biology

💡 **Academic Intent** - Study cellular functions, gene expression, and molecular mechanisms to support progress in healthcare, agriculture, and biotechnology

📁 INTERNSHIP EXPERIENCE

🔬 **CMS Laboratories** - Gained hands-on experience with **HPLC (High-Performance Liquid Chromatography)** techniques and analytical laboratory procedures, building precision and practical confidence for advanced laboratory work

★ TECHNICAL COMPETENCIES

✓ **BioMolecules** - Core understanding of biomolecular structure, function, and biochemical relevance in life sciences

✓ **Analytical Techniques** - Hands-on familiarity with scientific analysis workflows and lab data interpretation

✓ **Microbiology** - Bacterial culture, staining techniques, and microscopy

✓ **Molecular Biology** - DNA extraction, gel electrophoresis, and PCR techniques

✓ **Genetic Engineering** - Foundational understanding of gene-level manipulation concepts and related biotechnology applications

✓ **Immunology** - Basic principles of immune response, antigen- antibody interactions, and applied life science context

✓ **Cell Biology** - Cell structure, cell culture, and tissue preparation

✓ **Lab Safety & Management** - Proper handling of equipment and safety protocols

📍 Markapur, Andhra Pradesh

🎯 CAREER OBJECTIVE

To pursue full-time PhD study in Life Sciences (Biotechnology), deepen expertise in molecular biology and gene regulation, and contribute meaningfully to academic and applied biotechnology work.

💡 KEY ATTRIBUTES

PhD Applicant

Academic Excellence

Molecular Biology Focus

M.Sc. Graduate

Collaborative

Disciplined

Data-Oriented

Bilingual

Laboratory Practice

💖 MY COMMITMENT

"I am committed to full-time doctoral study, continuous learning, and disciplined scientific contribution in molecular biology and life sciences."

🕒 AVAILABILITY

Immediately Available

Ready to join with full commitment for the PhD programme and associated laboratory and academic activities.

★ PERSONAL STRENGTHS

✔ Quick Learner

✔ Hardworking & Dedicated

✔ Analytical Mindset

✔ Excellent Communicator

✔ Energetic & Enthusiastic

✔ Coachable & Professional

✔ Flexible & Adaptable
