EXPERTISE

- End-to-end architecture
- API & service design
- Team leadership & mentoring
- Build/release reliability
- Automation & tooling
- Cross-functional delivery

PLAY APPS

- Gospel Band
- UMax
- Bingo Box

CERTIFICATIONS

- HackerRank Problem Solving
- HackerRank Java
- HackerRank Python

Uday Kumar Bejjam

Architect · Baxter India R&D · 10+ Years Experience

Full-stack architect specializing in Java, Spring Boot, and microservices. Designs scalable platforms for healthcare and finance, leads delivery from architecture through production, and mentors teams on reliable engineering practice.

EXPERIENCE

Architect

Jun 2023 – Present

Baxter India R&D

- Architected Configuration Manager for hospital devices using React, MongoDB, Java 17, Spring Boot, and Azure.
- Defined service boundaries, RBAC model, and API contracts across microservices.
- Led development and reviews; optimized MongoDB schemas, caching, and Azure deployment.
- Mentored engineers and aligned architecture with clinical device configuration needs.

Senior Software Engineer

Jan 2022 – Jun 2023

Visa (Foraysoft)

- Built Customers Credit Risk Management for payment-gateway limit controls and defaulter alerts.
- Delivered Angular + Java 8 microservices with RocksDB and Oracle for performant risk workflows.
- Owned API design, production support, and documentation for client-facing risk tooling.

Senior Software Engineer

Mar 2021 – Jan 2022

JP Morgan (Mphasis)

- Delivered KYC management capabilities with Spring Boot, REST services, and Angular.
- Drove integration reliability, release coordination, and technical problem resolution.

IT Analyst & Technical Lead

Feb 2016 – Mar 2021

Tata Consultancy Services

- Led a team of 7 on Bank of America small-business credit validation microservices.
- Delivered Best Buy fulfillment and Digital Assistant (DialogFlow, Scala, Akka) platforms.
- Built internal automation/tools (AE Media Manager, Evidence Manager, Copybook Manager).
- Trained teams on Java, Spring, and automation; designed reusable libraries.

SELECTED PROJECTS

BAXTER INDIA R&D

Configuration Manager

Role-based web platform to manage hospital device configurations with scalable APIs and Azure hosting.

React

Java 17

Spring Boot

MongoDB

Azure

VISA

Customers Credit Risk Management

Limit management and real-time defaulter alerting for Visa payment-gateway customers.

Angular

Java 8

RocksDB

Oracle

Microservices

EDUCATION

B.Tech (EEE) – Acharya Nagarjuna University / Bapatla Engineering College

2011 – 2015

Intermediate (M.P.C) – Vignana Bharathi Junior College · Class X – Sri Sai High School

2008 – 2011
