TECH STACK

Java 8/17/21

Spring Boot

Microservices

React.js

Kafka

AWS

Azure / AKS

Docker

Kubernetes

Jenkins

Terraform

Postgres

Oracle

EXPERTISE

- SDLC & microservices architecture
- OAuth2 / JWT / Keycloak security
- AWS networking (VPC, IAM, EKS)
- CI/CD & multi-env cloud deploy
- Team leadership (led 5 engineers)

SOFT SKILLS

- Problem Solving
- Time Management
- Decision Making
- Adaptability
- Communication

Dhananjay Kumar Tiwari

Senior Software Engineer · Java Full Stack · Cloud · DevOps

8+ years building Spring Boot microservices, React frontends, and AWS/Kubernetes platforms. Strong in OAuth2 security, Kafka eventing, and CI/CD — currently at Baxter India.

EXPERIENCE

Senior Software Engineer

Aug 2023 – Present

Baxter India, Bangalore · Configurator (Patient Monitoring)

- Built React UIs and Spring Boot / Spring Cloud microservices for clinician vitals monitoring.
- Implemented Kafka inter-service communication, Resilience4j fault tolerance, and OAuth2 security.
- Containerized with Docker; orchestrated on Kubernetes/Helm (AKS) with Azure Key Vault secrets.

Cloud Consultant

Jul 2020 – Jul 2023

Concentrix (Prokarma Softtech), Hyderabad

- Delivered Honeywell Aero NGOSS microservices and T-Mobile CCAT Validator library.
- Drove Spring Cloud development, Agile delivery, automation scripts, and CI/CD culture.

Senior Software Developer

Nov 2018 – Jul 2020

PRI India Pvt. Ltd. (MasterCard), Pune

- Managed Docker images via JFrog and PCF deployments; monitored health with ELK.
- End-to-end Spring Boot delivery with PostgreSQL, Nginx, Jenkins, and GitLab.

Senior Software Developer

Jul 2017 – Nov 2018

Infosys (OMFUL), Pune

- Enterprise Java/Spring development foundations within Agile delivery.

SELECTED ACHIEVEMENTS

SECURITY · MICROSERVICES

OAuth2 / JWT with Keycloak & Okta

Unified auth model with JWT validation and RBAC at gateway and service layers for zero-trust alignment.

OAuth2

Keycloak

Okta

Spring Security

RECOGNITION · MIGRATION

Struts 2.0 → Spring Boot & React Microservices

Led end-to-end modernization with service decoupling, API-driven design, and containerization.

Spring Boot

React

Microservices

RECOGNITION · AWS

CI/CD Multi-Environment Cloud Deployment

Client-appreciated pipeline with CodePipeline, CodeBuild, EC2, S3, and CloudFormation.

CodePipeline

CloudFormation

AWS
